## FISHING REPORT

Winter is upon us once again and it's time to target these silver monsters up in the shallows. Places like the south arm of B, north arm of B, Jacks bay, 2 mile creek and Bird bay are all great spots to start. These systems have a large number of small bays that run all the way through them. You

will find the Barra sitting up in the shallow water usually in the back reaches of these bays. Stealth is of the utmost importance at this time of year, so turn your motor off well before you get there and sneak in on your electric. The lures of choice have been the suspending Jazz dangler 115, Z man frogs, tropic angler floaters and B-52's and as always the pro range slick rigs. If you are finding the Barra scene a little tough remember that there a mile of Australian Bass active this time of year, lure fishing for bass is also great fun as is live bait fishing for them. Be sure to throw a bait trap or two in as live shrimp are a favourite for these guys and there's a chance of getting a yabbie or two as well.

If you need any advice we are always willing to help you out wether it be lure selection,

fishing hot spots or fishing charters so come and see us at the office for any info.  
HAPPY FISHING!

## JOKE OF THE MONTH

I was sitting in the waiting room of the hospital after my wife had gone into labour and the nurse walked out and said to the man sitting next to me "Congratulations sir, you're the new father of twins!" the man replied, "How about that, I work for the Doublemint Chewing Gum Company" The man then followed the woman to his wife's room.

About an hour later the same nurse walked out and announced that Mr Smith's wife had just had triplets. Mr Smith stood up and said "Well how about that, I work for the 3M company.

The gentleman that was sitting next to me then got up to leave.

When I asked him why he was leaving he said, "I think I need a breath of fresh air." The man continued, "I work for 7-Up"
